## Ten Tips on Bidding in J & J Medal Sales

1. Examine the entire catalog a minimum of three times.
2. Mark the lots each time, or make a separate list of the lots which interests you.
3. For the lots you want the most, bid the absolute *highest amount you would pay*. Do not place yourself in the position of having to say after the auction "If I had only bid \$1 or \$10 more I would have won that lot!" Most lots that are lost could have been won by one—or at the most two—more advances. If you "bid liberally" you can win the lots you really want.  
*Note: In most instances you will receive the lot for less than this highest amount—depending upon competitive bidding. If you *really* want a particular lot, feel free to bid as much as double, triple, or more, of top estimate to get the lot. What you will actually pay will depend upon competitive bidding—what others are willing to pay and what they bid.*
4. For less expensive lots—say under \$20—you may bid in odd-cent amounts if you wish (odd-cent bids win over even-dollar bids, as \$10.44 beats \$10.00).
5. Then go through your selected lots again and bid on those you would buy if the price were right. Ask yourself "Would I buy this at low estimate, or below?" Remember, some lots don't get adequate bids—you could pick up a bargain this way. Bid a price you would actually pay.
6. Finally go through the entire catalog again to see if you missed anything you really want.
7. Then total your bids. Very few bidders get everything they bid on. But don't bid over your budget, or your ability to pay for any or all on which you bid.
8. Consider checking the "increase boxes" on the bid sheet ("Increase my bid by \_\_\_\_%")—if you can afford it. This is a technique for advancing your mail bids as if you were bidding on the floor in competition with other bidders in the auction room. It will only be used if necessary.
9. Fill out the bid sheet. Be careful with your figures! More errors are made in this step than in any other. Remember—you are responsible for every bid on that sheet even if it is on the wrong lot, or the wrong amount! The auctioneer must act on the bid sheet; if you give him wrong figures it is not his fault. Double check your bid sheet.
10. *Mail early.* In every auction tie bids are awarded to the earliest received.  
*It's fun to bid at auction. It can even be done from your easy chair in your own home. Great collections can be built this way. Try it!*
